To whom it may concern

We have had the pleasure of using Advantage Northampton over the last 3 years on a regular basis. We cannot praise them enough for their friendly and extremely efficient service.

Our needs have been mostly for the typing and sending of mail-shots, along with telesales calls to make appointments for our representatives with both existing and new customers.

Despite often giving very short notice or changes to requirements, our deadlines have been consistently met and we will certainly continue to use their services.

Yours sincerely

C. Barnett
